STANDARD OPERATING PROCEDURES (SOPs) FOR GLOBAL POSITIONING SYSTEMS AND
IN-SITU CHARACTERIZATION FOR RADIONUCLIDES - JMK-0847-92

Attached are the SOPs for operation of our global positioning systems and In-Situ
Characterization for Radionuclides. These documents must be transmitted to the
Environmental Protection Agency (EPA) and the Colorado Department of Health (CDH) as
expeditiously as possible since this equipment will be required to support radionuclide site
characterization of Rocky Flats Plant which is scheduled to begin by September 8, 1992.

We are prepared to deliver the required number of documents to the regulatory agencies as
soon as we receive your official letter of transmittal.

Please direct any questions or comments to M. L. Sievers at extension 8634, digital
pager 5145, or R. T. Reiman at extension 8619, digital pager 4681, both of the Earth
Resources Division.

M. Kersh
M. Kersh, Associate General Manager
Environmental and Waste Management
